

## Remove Unwanted Extensions from Chrome

Unwanted extensions can cause issue with pop-ups and websites being blocked by the content filter. Any extension that has gaming, advertising and arcade should be removed. Please follow these steps to remove these unwanted extensions.

You can uncheck the “Enabled” box if you’re unsure about deleting the extension. This does not remove the extension from the computer. If the issue is resolved after your disable the extension you may return at any time to delete the extension by selecting the “Trashcan”
