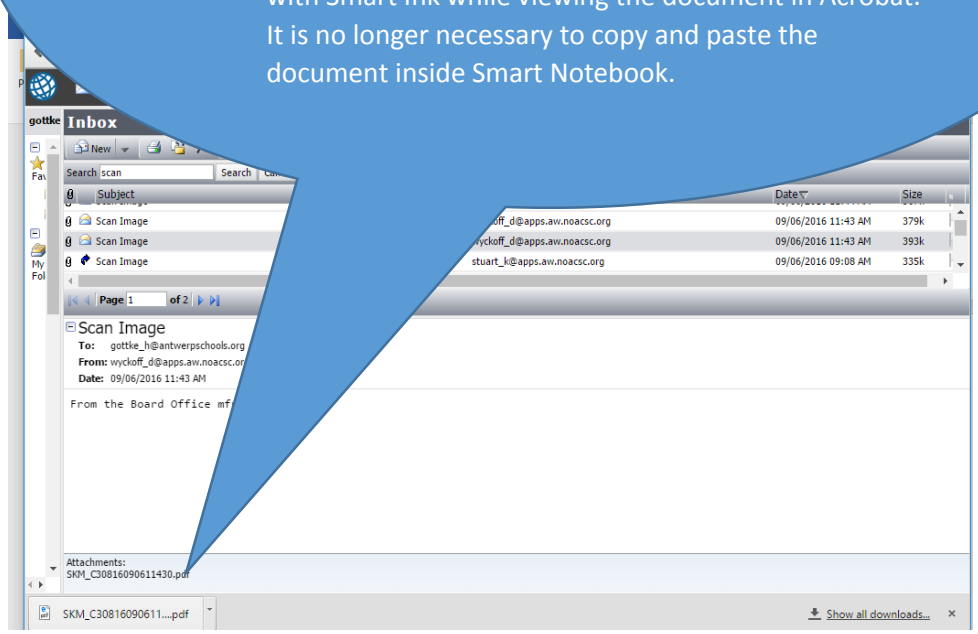
Search the web and Windows
Once the enable box is selected a new tab will open explaining the benefits of enabling Acrobat. You may close this.


When opening a PDF file on the web or in your email the file will no longer open in the Chrome Browser. You will see a download tab open at the bottom of the screen. When the document has been completely downloaded double click on the file and it will open in Acrobat. You will be able to write on the document with Smart Ink while viewing the document in Acrobat. It is no longer necessary to copy and paste the document inside Smart Notebook.
